IX. The salaries of officiators fixed by the preceding rule form the minimum rate of remuneration; but an addition to the fixed portion of the officiator's allowance, according to scale, will be made in certain cases specified in the following subsidiary rules.

X. When the difference between the total of existing emoluments (as found by Rules I and II) and that as fixed by Rule V or VI falls short of rupees 5 in the case of villages having a gross revenue of less than Rs. 500, and of Rs. 10 in case of villages having a gross revenue in excess of Rs. 1,000, this difference shall be assigned as a permanent fixed allowance to the officiator in excess of his salary as fixed by Rule V or VI.

XI. When the total of existing emoluments is large, *viz.*, when it exceeds the salary of the officiator as fixed by Rule V or VI, 10 per cent of this excess will be assigned as a permanent fixed allowance to the officiator in excess of his salary as fixed by Rule V or VI.

XII. In the case of towns, large villages, and villages in the vicinity of Railway stations, camping grounds, large marts and similar localities, the Patels of which are ordinarily called upon to perform heavy miscellaneous duties, an extra allowance not exceeding Rs. 15 per annum will be assigned to the Patel (and where there are two Officiating Patels to each Patel) in addition to the salary of the office fixed by the scales in Rule VIII.

XIII. The gross revenue of the village, referred to in Rules V and VI, is the whole revenue leviable for any year before deducting any remissions.

XIV. Patels and Shanbhogs shall receive their emoluments by a deduction of the amount of the same from the assessment on their *handayam* lands, the same being adjusted at each annual jamabandi and duly shewn accordingly in the village accounts, to prevent complications. Where the assessment on their lands is insufficient for this purpose, the balance will be made up by their deducting it from the last instalment of revenue, before paying such instalment into the Taluk Treasury. In this latter event, the receipt of the Patel or Shanbhog for the amount of such balance as so deducted shall be considered equivalent to the payment into the Treasury of an equal sum in cash.

XV. The amount of quit-rent fixed on the holding of each share-holder is fixed for the term of settlement, but the total emoluments of the officiators will be revised once after ten years, and will be modified according to the same scale in proportion to the revenues of the village as then realized.

XVI. When the assessment of the occupied arable land, (exclusive of alienations) in the year in which the settlement of remuneration of Village Officers is made, exceeds five-sixths of the assessment of the entire arable land (exclusive of alienations) in any village, the gross revenue of the year will be taken for the calculation of the remuneration of the officiators.

XVII. When the assessment of the arable land, specified in the preceding rule, in occupation in the year in which the settlement of the village officiators is made, falls short of five-sixths of the gross assessment of all the arable land (exclusive of alienations) in the village, then five-sixths of such gross assessment shall be taken for the calculation of the remuneration of the officiators.

XVIII. The existing official emoluments valued as provided for in Rules I and II will be appropriated for the support of the officiator in the manner specified in the following rules, and the balance of emoluments remaining, after providing for the officiator, is to be disposed of for the future in the manner also provided for in these rules.

XIX. The emoluments derived from land as fixed by Rule I shall first be appropriated to provide the salary of the officiator.

XX. When the emoluments derived from land are insufficient to provide the salary of the officiators, the cash emoluments from the Government Treasury will next be appropriated to make up the salary of the officiator.

XXI. Any deficiency, after appropriating all the emoluments from land and cash, shall be made good from the Government Treasury.

XXII. Any surplus on the existing emoluments in land and cash remaining over, after providing the salary of the officiator, shall be dealt with as follows.

5. Nominations will be made in the first instance without reference to the special department of the public service to which the pupils will ultimately be appointed. The first half of the course prescribed for both divisions will be occupied with such subjects as are common to the requirements of all three departments of the service. At the conclusion of the first half of the course, the students will be allotted to the several departments of the service, selection being made as far as possible with reference to the aptitude and inclination of each student. Thenceforth the education of the students will be conducted with reference to the special requirements of the department of the service to which they are assigned.

6. An engagement will be taken from all candidates previously to final nomination, binding themselves with two securities in the sum of Rs. 2,000 for the Upper and Rs. 500 for the Lower Department, to serve the Mysore State, if required, in the Department to which they may be ultimately assigned, in any part of the Province to which they may be sent, for a term of not less than five years from the date of their final admission to the service.

7. The course of instruction in the Upper Division for pupils under training for the superior grades of the departments specified in the 1st para of this order will ordinarily occupy three years. The term may be abridged in the case of any student who is able to complete the course in a less period.

The fee for pupils while under instruction in this Division is fixed at Rs. 15 per mensem payable quarterly in advance, and they will provide their own books, instruments, &c.

The course of instruction for students in the Upper Division will embrace the following subjects:—

- I. Mathematics.
- II. Natural Philosophy.
- III. Mensuration and Estimate making.
- IV. Surveying and Levelling.
- V. Constructive Engineering.
- VI. Architectural and Topographical drawing.
- VII. Natural Science, including botany and vegetable physiology, chemistry, geology and meteorology
(for candidates for the Revenue Survey and Forest Departments.)

8. The course of instruction in the Lower Division will ordinarily occupy two years, but the term may be abridged as in the case of the Upper Form.

Students while under training in this Division will receive from Government a monthly allowance of Rs. 8—0—0 per mensem during the first year, and Rs. 12 per mensem during the second year of the course, provided that no student shall be advanced to the higher scale of pay, whose conduct and progress do not in the opinion of the Principal entitle him thereto. Students in the Lower Division will be required to find their own books and instruments.

9. The course for the Lower Division will embrace the following subjects:—

- I. Mathematics.
- II. Surveying and Levelling.
- III. Engineering.
- IV. Drawing and Estimating.
- V. Account and Book-Keeping.
- VI. Elements of botany and vegetable physiology, chemistry and geology (for candidates for the Revenue Survey and Forest Departments.)

The course for candidates for the Lower Subordinate Establishment will be less difficult in degree than that to which candidates for the Upper Subordinate Establishment will be subjected.

10. Quarterly examinations will be held to test the progress of the students in both Divisions, and any student who fails to satisfy the Examiner at such examinations, or who is considered unlikely to attain the required proficiency within the period prescribed for the course, will be reported, in view to his removal from the school, in which case he will forfeit his claim to an appointment under Government. Cases of marked misconduct on the part of any pupil will be similarly reported with the same object.

At the close of the course a final examination will be held designed to test the general profici-

209

ency of the students in each division of the school. Seniority in the several grades and departments will be determined by the result of this examination.

11. Those students who pass will join the departments to which they are assigned, in the order of their passing, on probation for one year, at the end of which period, if they give satisfaction they will be confirmed and will thereafter be fully eligible for promotion. The appointments in the several departments of the Mysore service, for promotion to which in due course passed students will be eligible on the satisfactory completion of their term of probation, are as follows :—
